Titan TTC-G6TZ Extendable Notebook Cooling Pad---1 size fits all notebooks between 12"and 20" Extending Mechanism! 4 Powerful Silent Fans! High Cooling Performance!

Taipei, Taiwan, August 23, 2007----Titan Computer Co., Ltd, a leader in the design and manufacture of computer cooling solutions, today released the TTC-G6TZ, which is a high performance notebook cooling pad with 4 powerful yet silent fans.

Featuring expanding mechanism and flexible angles, the TTC-G6TZ is able to fit most notebooks from 12" to even 20". Also, with the flexible angle design, it can match up with different sizes of notebooks and make your notebook stay steady.

With 4 built-in silent fans, the TTC-G6TZ is able to provide powerful airflow, so that hot and cool air can be exchanged quickly to reduce the heat trapped between your notebook and the desk. In addition, the surface of the cooling pad has a unique and excellent airflow design to guide the airflow to cool the entire notebook bottom and keep your hard-working notebook cool!

The TTC-G6TZ is powered directly from a USB port. It's a high quality compact design and easy to carry, ideal for cooling your notebook at home, at school or at the office. If you are looking for a high performance notebook cooling pad to protect your notebook from overheating, Titan TTC-G6TZ will be a good one to choose!
